Tornado Report

### Description

Norman, Okla.-- Two Norman residents were staying in a concrete stone structure in Andrew's Park as a tornado touched down. The two managed to run across the street to safety. Samantha, weighing under 100 pounds, was worried that she would have been "sucked out" had they stayed any longer.

NewsCrowd is where you and journalists combine to tell the story of unfolding events. Together we can tell the story better.

## How it works

mophie

# AEJMC/Bridge grant benefits

- Made a space for mobile in the journalism program
- Brought geo-location into reporting
- Gave j-students real world reporting moments
- Multi-platform reporting
- Editors better positioned for jobs/internships

# AEJMC/Bridge grant considerations

- Make sure you budget time needed as it grows
- Seek tech partners if needed
- Get T-shirts for the class
- It is a project or does it need to be sustained?

# Professional graduate level mobile class

Students worked past semester - May 20th EF5 in Moore, Okla.
